

American Arborvitae
(White Cedar)
A dense, flat green pyramidal tree. It has feather-like yellowish-green needles with blunt tips. Has a medium growth rate & grows 40-60-ft. high, useful as a windbreak & wildlife habitat.

American Sycamore
One of the biggest, sturdiest & most durable of North America hardwoods. It's the most striking feature is it's unique bark, resembling the camouflage of a soldier's uniform. Height: 80-100 ft. Does well in most soils.

Black Walnut
One of the most valuable native trees. Heavy, strong, durable heartwood, in great demand for veneers, cabinet making. Nuts are eaten by humans & wildlife 70-100 ft.

Bur Oak
A massive, majestic Oak and native to Ohio. May reach 90 ft. tall and 80 ft. wide. Large, leathery leaves. Deer enjoy the acorns the Bur Oak produces.

Colorado Blue Spruce
Needles are stout and prickly. 3/4-1-1/4 inches long, rich green to bluish green. Moderate growth rate.

Flowering White Dogwood
Produces creamy white blossoms in spring and red berries in autumn & winter that are enjoyed by wildlife. Ht: 10-20 ft.

Hazelnut (American)
A shrub with broad heart shaped 2-5" leaves. Leaves turn orange & purple in the fall. Has male & female flowers. Wildlife & humans enjoy the edible nuts. Ht: 10'.

Norway Spruce
Needles are dark green, 1/2-1 inch long. The twigs and branchlets hang downward. The only spruce with drooping branchlets and the only one with large cones. Ht: 60-90 ft. Useful for wildlife habitat.

Pin Oak
A fast growing, large maturing shade tree which has an oval-pyramidal shape. Leaves are glossy green in summer. Fall color ranges from red to brown. Utilized by many game species. Pin oak is commonly planted for food plots.

Red Oak
Leaves turn vibrant red in autumn. Fast growth, up to 2' per year. Prefers sandy loam acidic soils in full sun. Wildlife enjoy the acorns that are produced. Ht: 65-100 ft.

Shagbark Hickory
A slow growing but potentially massive tree that prefers deep, moist, rich well-drained soils and sunny areas. Virtually disease and pest free; fruits, etc. Great for wildlife. Suited more for a woodland area rather than a yard.

Sugar Maple
A native tree that has dark green foliage turning yellow to orange to fiery red in fall. Grows in most types of soils. The sap is used to make maple syrup. Slow to medium growth. Ht: 40-60 ft.

Swamp White Oak
Happiest when it is getting it's feet wet, but surprisingly drought tolerant. Provides housing and food for birds and mammals. Ht: 50 ft.

Sweet Gum
Star shaped leaves turning to brilliant reds, oranges, yellows & purples in autumn. Sweet Gum are extremely resistant to pests & diseases. Birds enjoy the seed capsules. Ht: 60-90 ft.

Tulip Poplar
One of the tallest hardwoods. Long straight trunk, narrow crown & beautiful flowers resemble tulips. Leaves turn yellow in fall. Lumber is used to build toys, furniture, instruments. Ht: 80-100 ft.

White Oak
A tall tree with rather evenly lobed hairless leaf that may be somewhat whitened underneath. Growth is good, best on deep, well drained loamy soils. Can be used in a windbreak. Good for timber. Ht: 60-80 ft.

White Pine
Needles are in 5's, 3-5 inches long, soft texture, rich green. Fast growth rate. Good as a windbreak. Height up to 100 feet.

Winterberry
An erect moderate sized shrub, growing to heights of 5 to 15 feet tall. The smooth bark is gray to blackish. Leaves that are 1 1/2-4 inches long that are dark green in summer turning to yellow in fall and dropping off by mid October. After 3 years scarlet red to orange globular fruit mature by late summer, often remaining into mid winter.
